

## **Expo 2010 Shanghai China: The Dragon Takes Flight**

Modeled on last September's successful conference on business opportunities associated with the 2008 Beijing Olympic Games, this program will provide Washington State companies an opportunity to interact directly with those responsible for procuring the billions of dollars worth of products, technologies and services estimated to be on the table as Shanghai prepares to host the 2010 World Expo. CTED will partner with Davis Wright Tremaine and the Washington State China Relations Council to organize the event. [Click here](#) to view the program brochure.
